Practice is the best preparation.

Careers, success, harmony, task execution and results in the corporate world are all driven by teamwork. The needed skills are practical, and the answers are not to be found in lectures, textbooks or PowerPoint slides.

The Team Results Masterclass is a 2½-day leadership masterclass aimed at people leading and running business teams. With a focus on the leadership skills you need to drive success, harmony, task execution and results, you will join an elite network of people who have done this Simulation-based and thoroughly enjoyable business leadership clinic.

You will spend two and a half days managing a specially designed project that combines the skills you need to compete and thrive as a working corporate leader with state-of-the art knowhow in simulation-based training developed from the intelligence community.

This is not a standard training program, but an intensive masterclass for working business leaders, compressed into a single 2½-day program including two overnights. It is run by Team Results USA, a company which has trained thousands of businesspeople in the leadership skills needed for growth and success, and whose CEO is a best-selling author on the subject.

You will also work with other leaders from industry and government in a high-end, collegiate atmosphere that will result in lifelong business friendships and contacts.

Benefits from the Team Results Masterclass include:

- For high-potential corporate leaders, practice and rehearse the team and leadership skills needed to be in the top few percent of performers.
- For experienced leaders, return to basics in a much more practical, digestible and enjoyable way than lectures, team building games and PowerPoints.
- For the corporation as a whole, find a fast, easy and inexpensive way to “top up” the skills base of leaders, to address any specific areas of need in a tailored way, and to keep their skills base current.

PowerPoint presentations and lectures on business leadership will not help your career at all. Only

practice and rehearsal does that. You will be working with a small group of other leaders to manage a simulated crisis. Practice, rehearsal, real benefit, new friendships, laughter and no PowerPoints are key. The project is worthy of senior businesspeople and our expertise in Hollywood special effects keeps it exciting.

Location and Syllabus

The Team Results Masterclass is run at our Simulation Center in rural VA, a beautiful 250-plus farmland retreat an hour from Washington DC. The Simulation Center offers great accommodation, modern facilities and superb grounds and outdoor walking areas. Your single room and chef-cooked meals are included.

Day One: Start 5:30pm, dinner, end 9:30pm. Introductions, group assignment, discussion.

Day Two: Start 8am, meals/breaks, evening study, end 9:30pm. Manage group assignment, discussions, case studies, coaching, both indoor and outdoor locations.

Day Three: Start 8am, lunch, end 3:45pm. Complete group assignment, strategic conclusions, outcomes, presentations, measurement, graduation.
